

CIRCUMFORT

Comfortable Healing, Faster Recovery

**SA'S FIRST AND BEST UNDERWARE
FOR CIRCUMCISION RECOVERY**

- Faster recovery
- Reduced pain
- Peace of mind

Circumfort is a novel medical device that aids in the healing process of circumcision. Circumfort is specially designed to reduce the pain experienced after circumcision by effectively keeping the penis in an upright position.

Our Mission

To create ease, peace of mind and healing for South African boys and men after they get circumcised. The use of Circumfort allows patients to get back to school or work soon after the procedure.

A red ribbon is on the left side. In the center, there is a yellow circle containing the text 'DID YOU KNOW'. To the right of the circle is a white question mark icon with a black outline.

**DID YOU
KNOW**

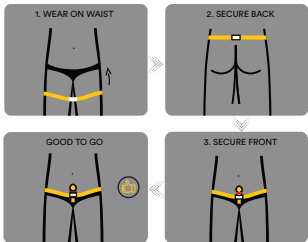

Circumcision reduces the chances of contracting HIV by 60% It also reduces chances of contracting STI/STD's, as well as cervical cancer for females. Circumcision is beneficial to both partners.

CIRCUMFORT IS MADE WITH:

- a) Hygiene white foam bracing with grey-brush back end - this helps keep the penis firmly in an upright position and makes it comfortable.
- b) Washable and adjustable elastic waist belt - that ensures that Circumfort is a one-size-fits-all product.
- c) Disposable hygiene fluid absorbing gel pad - that allows the patient to stay clean during healing.

Circumfort is the only device with the design to keep the penis in the required upright position allowing users to get back to normal living fast.
